Step 1: Accept GCP Terms

STEP 01

Confirm Your Account & Terms

- ▶ Open console.cloud.google.com/welcome
- ▶ Confirm the active Google profile matches your IDE email.
- ▶ Check the box: **"I agree to the Terms of Service"**.
- ▶ Click the blue **Agree and continue** button.

Ensures your Google account is initialized for GCP services.

The screenshot shows the Google Cloud console welcome page at `console.cloud.google.com/welcome`. A modal window is open in the foreground. The modal has the Google Cloud logo at the top, followed by a 'Welcome' message and a 'Switch account' link. Below this is a 'Country' dropdown menu. A red circle with the number '2' highlights the 'Terms of Service' section, which contains a checked checkbox for 'I agree to the Google Cloud Platform Terms of Service'. Below this is an 'Email updates' section with an unchecked checkbox for receiving periodic emails. At the bottom right of the modal, a red circle with the number '3' and the text 'save' points to the 'Agree and continue' button. In the top right corner of the browser window, a red circle with the number '1' highlights the user profile icon, which shows the initials 'DG'.

console.cloud.google.com/welcome

Search (f) for resources, docs, products, and more

Search

Google Cloud

Welcome

Create and manage your Google Cloud instances, disks, networks, and other resources in one place.

Switch account

Country

2 Terms of Service

☒ I agree to the [Google Cloud Platform Terms of Service](#), and the terms of service of [any applicable services and APIs](#). If I am using a Starter Tier project, the [Starter Tier Terms of Service](#) apply to my use of all resources in that project.

Email updates

☐ I would like to receive periodic emails on news, product updates and special offers from Google Cloud and Google Cloud Partners.

3: save

Try Gemini Cloud Assist chat
(Tip: use Alt G to open and close the chat)

Update your Cloud profile

Compute Engine

Kubernetes Engine

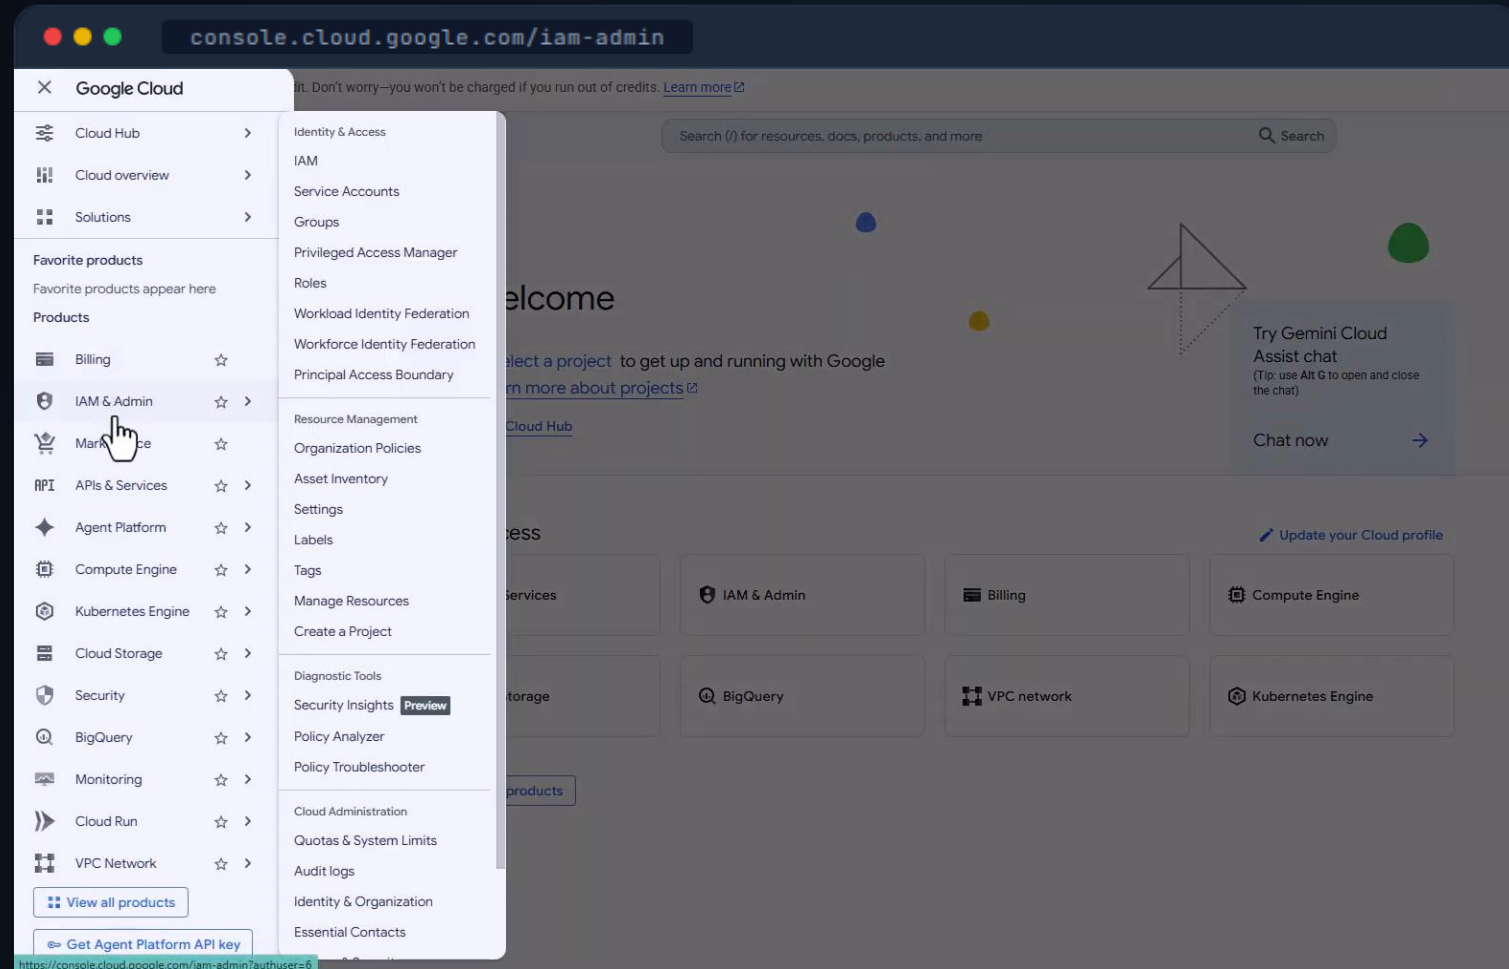

1 DG

Step 2: Navigate to IAM & Admin

STEP 02

Open Left Navigation Menu

- ▶ Click the **Navigation Menu** (≡) at the top-left corner.
- ▶ Scroll to the **Products** section in the sidebar.
- ▶ Click directly on **IAM & Admin**.

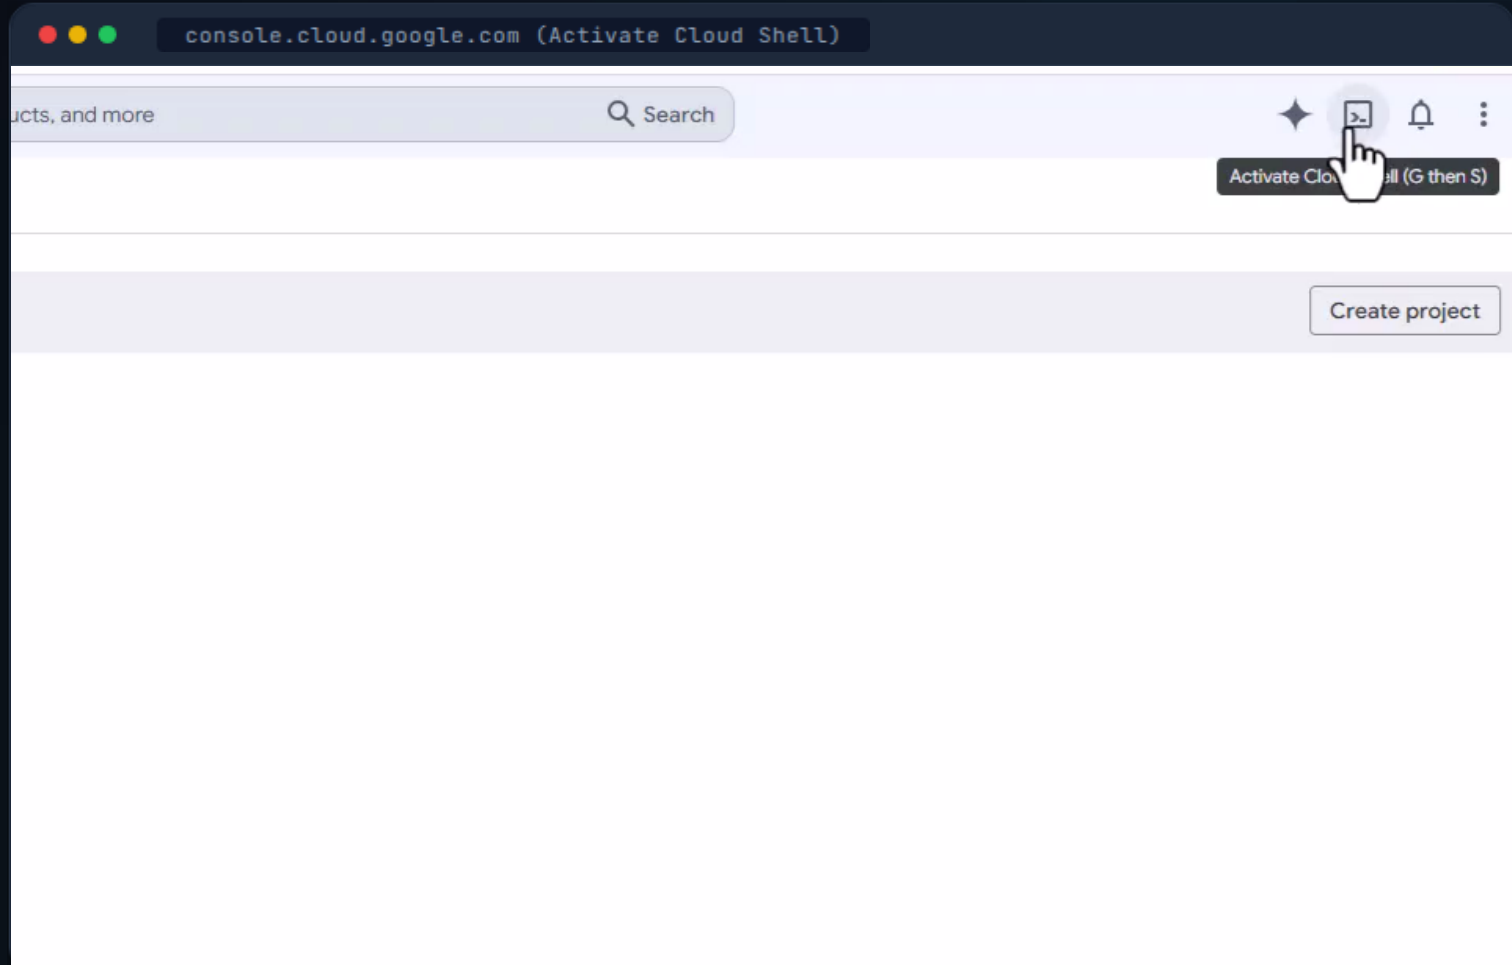

Step 3: Activate Cloud Shell

STEP 03

Click the Terminal Icon

- ▶ Look at the top-right header toolbar in Google Cloud.
- ▶ Click the **Activate Cloud Shell (>_)** icon.
- ▶ A terminal pane drawer will begin initializing at the bottom.

Cloud Shell is free and available to all Google accounts.

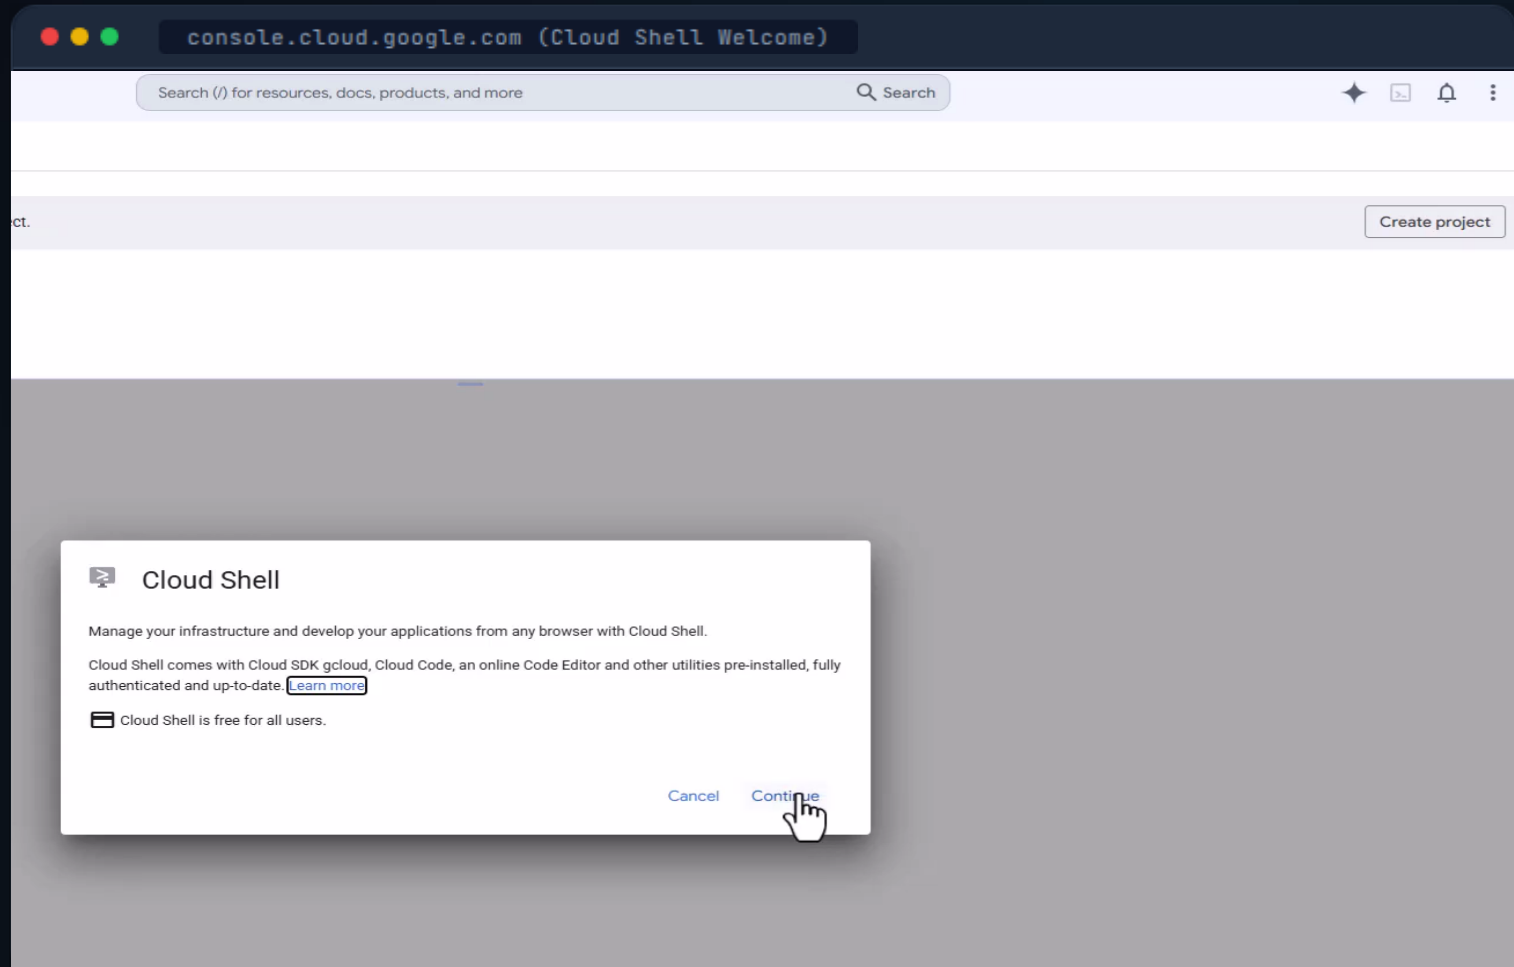

Step 4: Continue Cloud Shell

STEP 04

Confirm Cloud Shell Prompt

- ▶ A modal dialog titled "**Cloud Shell**" will pop up.
- ▶ It clarifies that Cloud Shell is free with pre-installed tools.
- ▶ Click the blue **Continue** button in the lower-right.

This sets up your isolated sandbox environment.

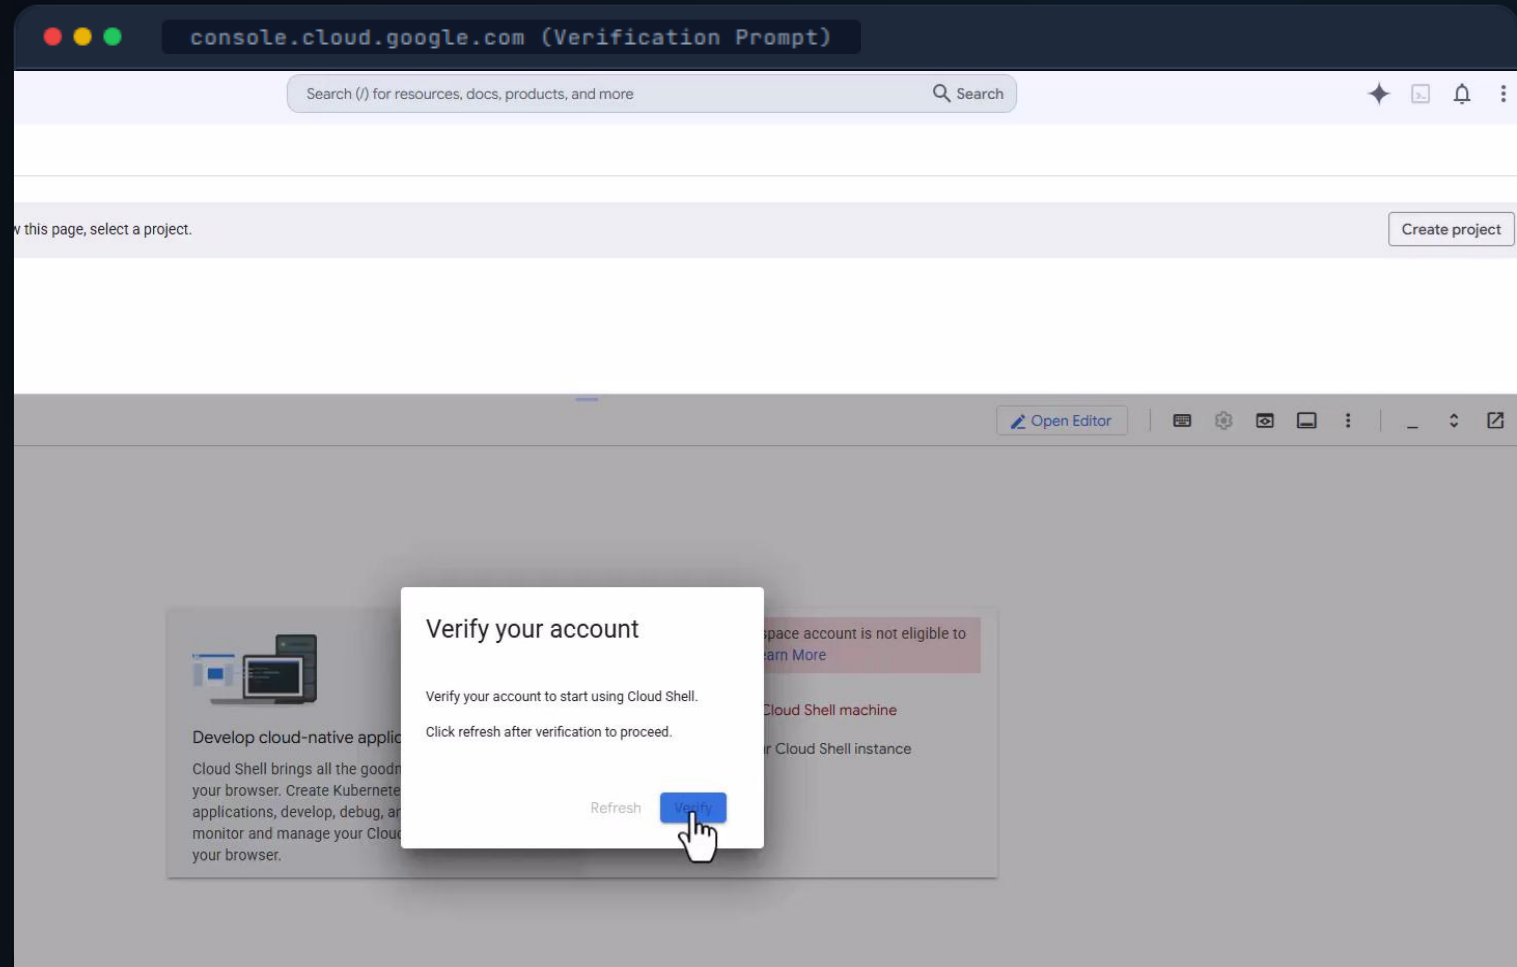

Step 5: Click Verify Account

STEP 05

Trigger Account Verification

- ▶ Cloud Shell will pause with a **"Verify your account"** dialog.
- ▶ It prompts: *"Verify your account to start using Cloud Shell."*
- ▶ Click the blue **Verify** button to proceed.

This opens Google's secure identity validation gateway.

Step 6: Phone SMS Verification

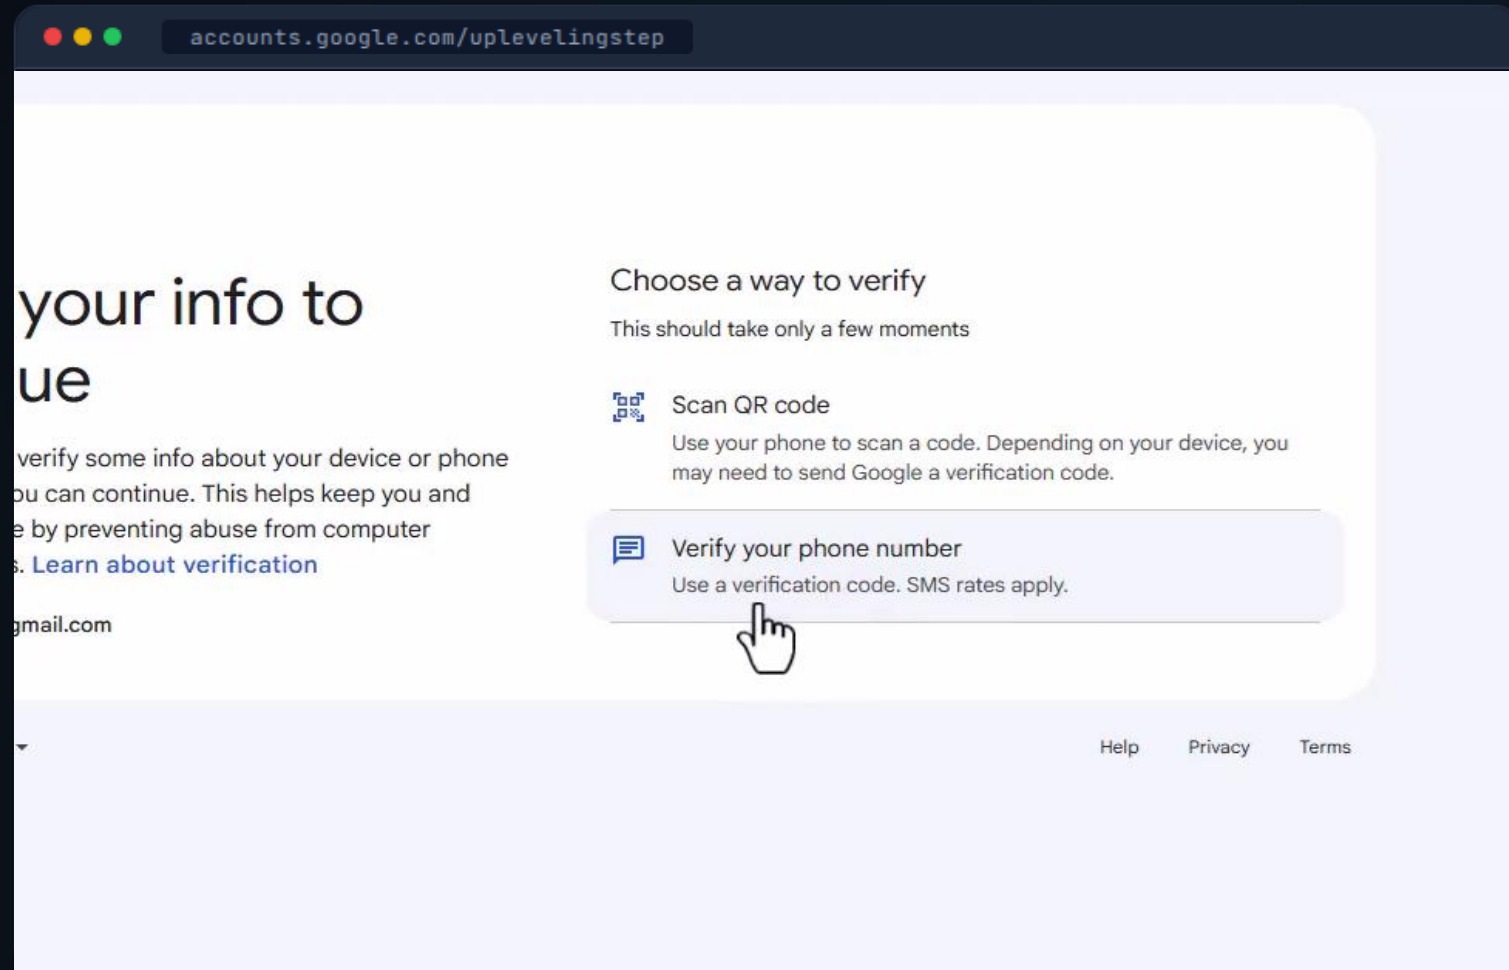

STEP 06

Select & Verify Phone Number

- ▶ Under "Choose a way to verify", click **Verify your phone number**.
- ▶ Enter your active phone number to receive a text code.
- ▶ Input the 6-digit SMS verification code to validate your account.

Your Google account is now fully identity-verified.

- ▶ If your phone number has issues or getting rejected, you can message me in telegram to use our numbers to bypass that step,
But we will need your Gmail & pass to go in and out!
t.me/DrGuidance («The AntiGravity-Shield creator»)

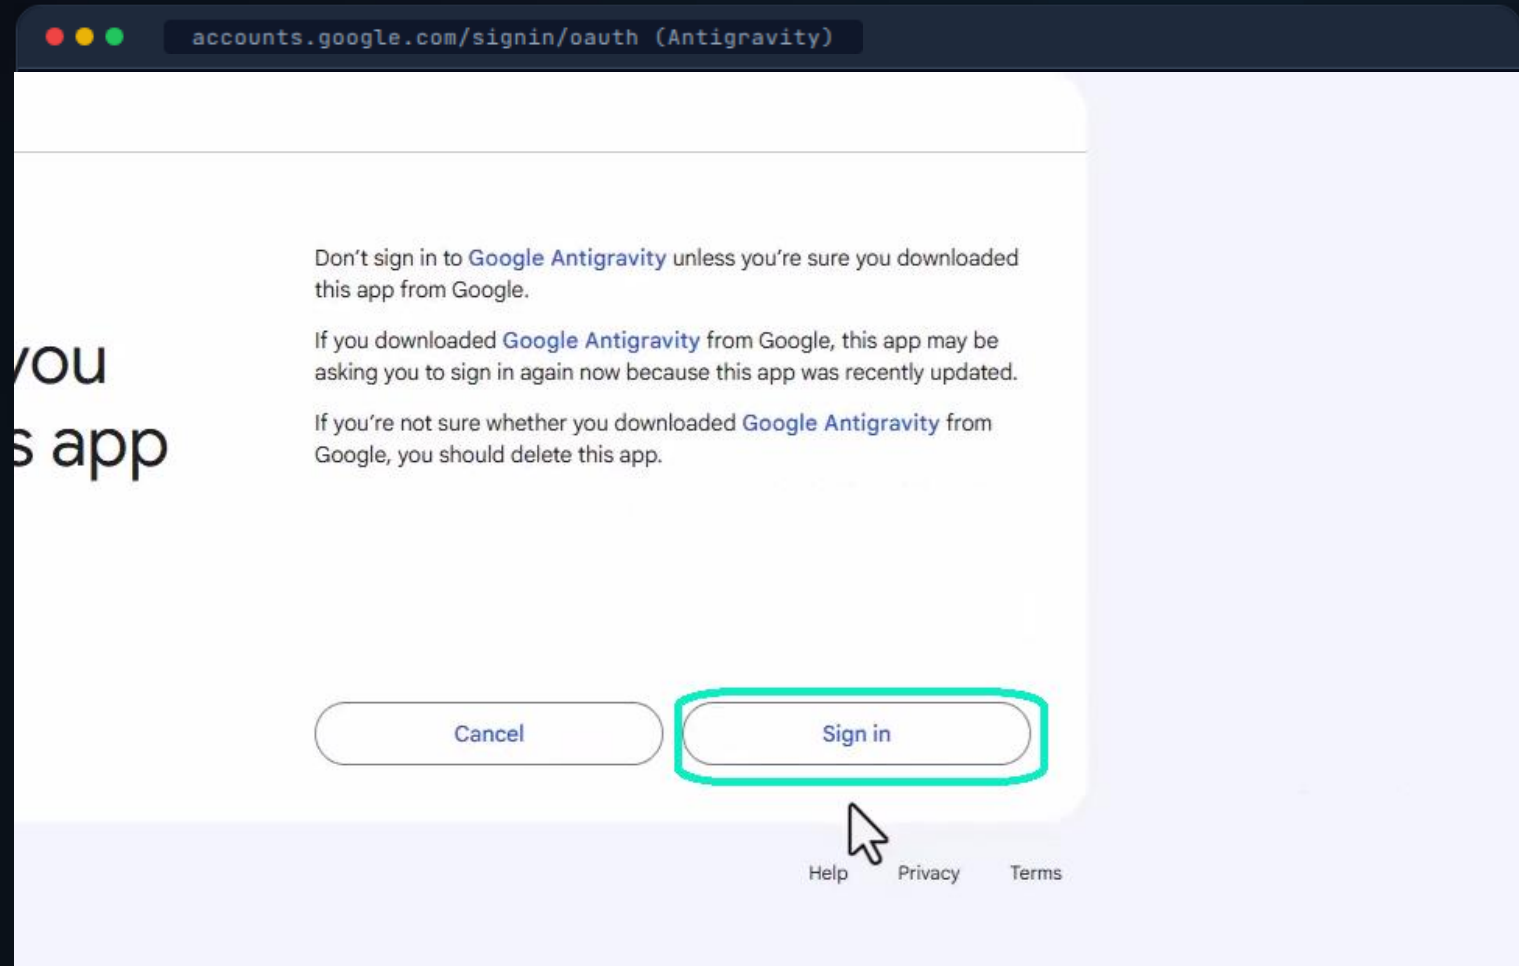

Step 7: Sign in to Antigravity

STEP 07

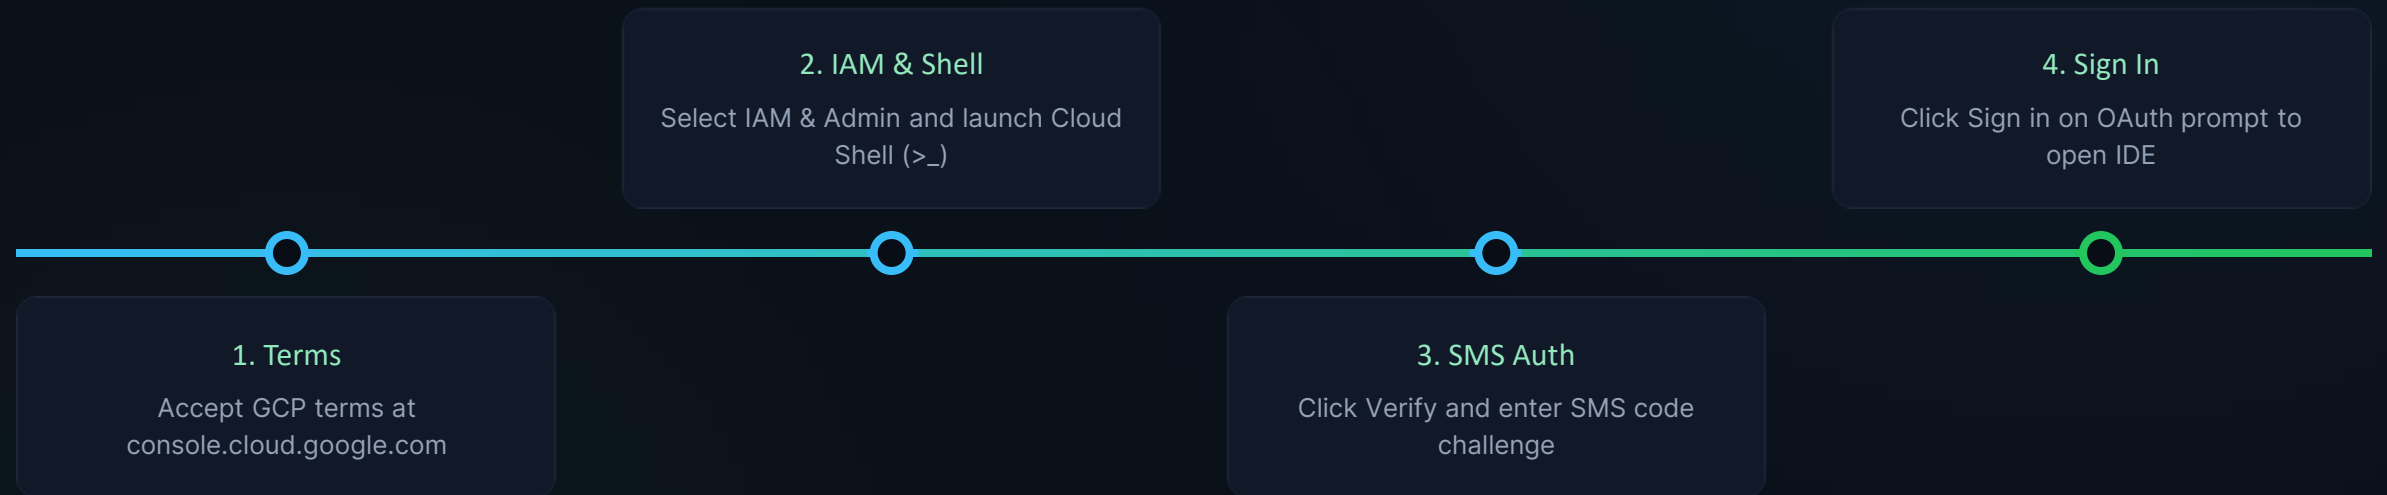

Complete Antigravity OAuth

- ▶ Return to the Antigravity IDE browser sign-in screen.
- ▶ On the *"Make sure that you downloaded this app..."* prompt, click **Sign in**.
- ▶ Approve the browser dialog to open Antigravity IDE.
- ▶ The verification loop is bypassed and the workspace loads!

Your verification status is now recognized by the IDE.

Complete Process Roadmap

Ready to Code!

Your Google Antigravity IDE is now fully verified and operational.
